CHAIRMAN'S MESSAGE

At the very outset I congratulate and convey my best wishes to all the faculty and student community for successfully bringing out this VANI, a biannual news letter of RIT. As the name suggests this news letter speaks about what we do at RIT and what we achieve in and out of RIT. It is the voice of RIT.

RIT, with its unparalleled logistics, fully equipped labs and well qualified faculty is ever striving to cater to the needs of the students and always paves a way for the overall development of the students. Students here are nurtured with not only academic skills but also with social values and humane qualities. RIT always tries to infuse in its students the spirit of competition and achievement by motivating and assisting them to participate in various curricular and co curricular events conducted in different universities near and far.

"When the going gets tough the tough gets going." The institute was able to overcome the difficult situations with unfading courage and indomitable determination. As a part of it, records no of placements were procured last academic year. This year a good number of MNCs have already visited our Institute and some are awaited. In this regard I applaud the efforts made by the principal and his team and Training and placement Cell for their strenuous efforts in achieving good placement record. Moreover the admissions from north eastern states like Manipur, Mizoram, Nagaland, Bihar, Orissa and Jharkhand have been enormously increased.

The Institute with its motivated team will further achieve its goals and objectives.

PRINCIPAL'S MESSAGE

I am happy to note that the biannual news bulletin of Aug/Dec 2012 session is brought out to be released on 26th January, 2013. One significance step forwarding that the Institute is heading for NBA accreditation towards the end of 2013. All the departments are preparing themselves to face the quality assessment successfully.

The contribution of the faculty by way of publishing papers in international and national journals during this period is commendable.

Fortunately the Management report to faculty is quite satisfactory to enable them to attend a number of workshops, seminars training programs, refresher courses etc. Support is extended to improve their qualification.

I congratulate the Editorial Board for their efforts in bringing out this news letter **VANI** of Regency Institute of Technology, Yanam.
